

BAKER FARM MARKET & U-PICK

U-PICK RULES

Please follow our picking rules for your safety and the safety of others and respect our property so other families can enjoy the U-Pick experience for years to come.

- Only pick those apples that you intend to purchase.
- Pre-purchased bags are required before entering the orchard.
- Please don't pick more apples than fit into your bag. With your help, we'll make sure more families can go apple picking this season.
- Don't climb or shake the trees. Limbs break easily and the apples will fall and bruise.
- Please don't throw the apples.
- Using one hand to hold the branch, use your forefinger and thumb to gently turn the apple upward till it releases. (Pulling down will cause the other fruit to fall and destroy flower buds for next year's crop.)
- Apple varieties mature at different times. Pick only in designated marked picking areas. Those varieties will also be posted where you purchase your bags.
- Please dispose of all of your trash.
- We love well-behaved, socialized dogs, but please be sure they're under your control at all times, on a leash and cleaned up after.
- Absolutely no one is allowed on the property when we are closed.

Any individual who fails to follow these guidelines may be asked to leave the premises and will not be refunded.
